provised stage in the Edwards gymnasium was the scene of the rehearsal. At the conclusion the duke remarked to the members of the orchestra, "If music is the food of love, play on."

To the strains of the music several students, including many coeds, began dancing. Mrs. Newberry, the preceptress of Monnett, appeared and then there was a lull.

The preceptress admonished the students, and upon condition that they would never indulge in the pleasure again the matter was dropped.

But that's not all. The very same day, W. Z. Evans, proprietor of the Delaware creamery, was convicted of adulterating milk with formalin in two counts and Mayor Beecher fined him \$50 and costs. In each charge, samples of the milk were taken in Columbus by the inspector of milk and from his tests the conviction resulted.

Then comes the announcement that the students of O. W. U. rebelled Monday and refused to go to classes, wishing to celebrate their victory in the oratorical contest. Because W. W. Carey of Mt. Vernon, attended classes, he was ducked in the odoriferous sulphur springs on the college campus, not only once but four times. We fear Delaware is a wicked city.

THE SKELETON WHICH WAS FOUND

IN THE REAR OF THE KELLENBERGER & SPEAR BUILDING, RECENTLY.

May be That of One of Two Men Who Disappeared Mysteriously Years Ago.

Editor Advocate:—On reading your article of the finding of a skeleton in the cellar underneath the old log cabin in the rear of the Kellenberger & Spear building, brings to my mind most vividly the mysterious disappearance of two persons, one in the forties, and the other in the fifties, both occurring only a short distance from where this skeleton was found. The first to drop out of sight was a porter or hostler that had worked for Honest John, who kept the Old Ohio House, on the corner of Church and Third streets, where the Scott building now stands. This "Honest John" was a noted auctioneer, and he used to entertain and amuse me as a boy, with his many quaint and funny sayings, one of which I remember. Holding up a fine tooth-brush in his hand he would say: "Now, ladies and gentlemen, here is a fine new Jerusalem overhauler, taken off the shank bone of a salamander forty feet under water, by the light of a diamond, warranted to kill all the she ones, knock over the ho ones, and forever stop their breeding." "Now, how much do I hear for this useful family article?"

The last seen of the Ohio House porter alive was in a saloon run by a burly vicious-looking German by the name of Fire Eagle, in a one story frame building, (where the store of Daniel Altshool is located), and about 2 o'clock in the morning. From here he was traced by blood spots to a lively barn built on the rear of the new jail lot, and run by a notorious character named "Bullet Neck" Clark, so called because he owned a race horse by the name of "Bullet Neck." This was a resort for the worst kind of characters, especially the canal boatmen. In the back part of this barn lot was discovered a big pool of blood, and a wad of tow, all covered with blood that looked just like it had been forced in some one's mouth to keep him from making an outcry. The trail could not be followed any further, but it was supposed that the body had been taken down to the creek and thrown in, and as far as I know no trace of it was ever found from that day to this. The strange part of the story is that this man left a trunk at the Ohio House, with several hundred dollars in it, and no one, to my knowledge, ever put in a claim for it.

The next person to disappear was a man named Congdon, who kept a grocery store on the canal, next east of the old Warner warehouse. He was a very large man, quite intelligent, and a splendid business person. He was living with a woman at this time, a sister of John Lorett, in the house now occupied by William Zipperer, next to the old log cabin house. All at once he was missed and the housekeeper said that he had gone to New Orleans to buy goods. But after some days and weeks had passed by, and he failed to return suspicion was aroused that he had been feigning death, and the authorities ordered the digging up of the cellar under his residence in an effort to find the body, as the Lorett's brother and sister were thought to have some connection with his disappearance. After some time the goods were sold and the proceeds were divided between the Lorett's and the old gentleman, Mr. Congdon, has never been heard of since. Congdon disappeared in 1857 or 1858, as I was keeping store at the time at No. 25 South Side of the Public Square, and I knew the old gentleman quite well.

Answer of Emma Holland.
In the case of The Baltimore & Ohio Railroad Company vs. Emma Holland and others, Emma Holland has filed her answer to the petition of the plaintiff. She admits that Edward Holland, during the latter part of his life was employed as a conductor by the plaintiff on the Midland division of the B. & O. R. R.; that on the 25th of January, 1901, he made his written application, under plaintiff's relief department, for full membership in the relief feature, and became entitled to \$750 to himself, or in the event of his death to his present wife, Emma Holland, and to his minor children by a former marriage; that by reason of the death of Edward Holland the plaintiff became indebted on the contract in the sum of \$750, and also for \$34.98 for sick benefits before his death, less \$8.25 benefit, at St. Joseph's Hospital.

The answering defendant says that by reason of the stipulations entered into she is entitled to one-half of the benefits, and his two children, by a former marriage, to the other half. She says that the \$26.58 sick benefits shall be awarded to her, she being his wife.

She further says that the funeral expenses of Edward Holland amount to \$266.00, and have not been paid, and there is no other property out of which the same can be paid. She asks the court to order the funeral expenses to be first paid out of the sum of \$750 due from plaintiff, and that the remainder of the funds the court order to be divided, one-half to her and the other half to the children. Fulton & Fulton, attorneys for Emma Holland.

Coughs, Colds

Lots of people look at a cough or cold as if it were inevitable, and refer to it as some ailment which they naturally expect during the stormy winter months. No person need have the slightest attack of cold or la grippe, nor even pneumonia, if their system is properly fortified. Rexall Muc-Tone will fortify your system against any such attacks. Since we make this strong statement we will tell you how Muc-Tone does this: Coughs, colds and pneumonia are but the result of a catarrhal condition, which is in reality an internal scrofula. If the system is free of catarrhal germs you need never fear coughs, colds and pneumonia. Muc-Tone will do it, because Muc-Tone clears the system of every trace of catarrhal germs, tones up the system, shakes off hanging on tag-end coughs and colds, revitalizes the entire system, increases the appetite and makes you put on flesh. You take no chances in buying Muc-Tone, because we back it up by refunding the price if you are in any way dissatisfied. We couldn't afford to spend our time selling this remedy if it didn't benefit ninety-eight out of every hundred persons who use it. We want you to try, on our personal recommendation, a large trial-size bottle that we sell for fifty cents.

A REASON

The United Drug Company, manufacturers of the Rexall Remedies, for whose preparations we are agents in this city, make 200 remedies, one for each 20. Each one is especially prepared to cure one disease, and that only. This is an age of specialists. You don't contract with a plumber to build your whole house, do you? Why should you contract with one proprietary medicine to cure all your troubles?

For Nervousness—Rexall's Americanitis Elixir, 75c.

For Dyspepsia—Rexall's Dyspepsia Cure, 25c.

For Coughs—Rexall's Cherry Juice, large bottle, 25c.

Y. M. C. A. Contest.

A lively scene took place in the building last night. About 7:30 the Reds scored several points which broke the tie with the Blues, and put their side ahead. A few minutes the red flag was out and a red shade over the electric light. The other sides assured the Reds that their prestige was for a short time only, and were seen in groups of two and three laying plans to pull down the enemy's flag and run up their own.

Mrs. Nicholas is the mother of Mrs. John Thatcher of this city, and the local police were notified, the Zanesville relatives thinking that she might have come to Newark. Mrs. Nicholas has been afflicted with loss of memory for some months.

Stole a "Wash."

John Hollin of Vine street, East Newark, got drunk. That wasn't so bad, but John unwisely swiped a washing from a clothes line in the rear of the home of Mrs. Miles, also a resident of East Newark. Officer William Howard was detailed on the case and after a suit interview with Hollin, the laundry thief "fessed up" and revealed the hiding place of the clothing. The "wash" and the thief were carted to the police station. John got \$10 and costs and 15 days in jail and Mrs. Miles got her washing back.

Struck an Officer.

J. C. Smith, a Zanesville man, did not bargain on the scolding ability of Officer "Doc" Roberts of the B. & O., when he interviewed while the officer was making an arrest on Monday night. Smith dealt the officer a stinging blow in the chest to Roberts was attempting to arrest an unknown hobo. Roberts immediately released the hobo and took after Smith. He chased the fugitive from the B. & O. station to the Pan Handle crossing on East Main street, where he finally captured him. Smith pleaded guilty and was fined \$10 and costs and sent to jail for ten days.

Government Road Building.

The government of the United States has built highways in Cuba, in Porto Rico and the Philippine Islands and congress is even now preparing to appropriate money to blaze the highways and establish means of communication in Alaska. But the astonishing fact remains that the government has taken no substantial part in building highways at home, and helping the people who sustain it, and furnish it the very means of existence as a government, although it is not forbidden by constitutional limitation or sound public policy from engaging in such internal improvement. Intelligent men all over the country know that the almost universal lack of improvement in our road conditions is directly referable to the fact that there has been no established system or policy pertaining to the question. According to the ordinary schemes for road building the farmers have been compelled to pay the burden of the cost. Road building is undoubtedly a duty of government. Government is established for the welfare of the people. Nothing that can be evolved from the brain of man will more directly affect material interests among the people than road conditions, for good or bad as the roads are good or bad. The question is one coming home to all the people. The proposition embodied in the Brownlow Good Roads' bill is undoubtedly a wise and thoroughly patriotic one. Congress is being looked to for relief in this road matter. The people are now aroused as they have never been in favor of this suggested system of co-operation, aided, fostered and led by the general government. The money that has been expended in the Philippine Islands—money gathered as taxes from our own people—would have constructed a scientific system of roads in every State in the Union. The people are studying about the question of government levying tribute on them for the support and betterment of other peoples, while relief is denied to them at home. The subject is assuming the practical phase that will lead to legislation such as the Brownlow-Lattimer bill, or something similar thereto.

Write to Hon. W. P. Brownlow and secure a copy of the bill.

Republican as well as Democratic newspapers strongly criticize the action of the senators who refused to permit the Philippine tariff bill to be reported from committee. The people generally will approve of such criticism. The bill is one of much importance. It passed the house of representatives with but few votes recorded against it, and it is a measure of justice which commands itself to the people generally. Its passage has been recommended by Secretary Taft and other trusted Republican leaders, and is known to be desired by the President. The treatment accorded it is said to have been inspired by a desire to hit at Mr. Roosevelt. But as it has been well pointed out, the blow really falls upon the poor Filipinos, who are not to blame for the views of the President on other questions which have excited the anger of his senatorial opponents. The Philippine tariff bill ought to be passed, and the senate will make a great mistake if it refuses to place it on the statute books.

NEW INSURANCE LAWS IN OHIO

MOVEMENT ON FOOT TO HAVE THE STATE LEGISLATURE TAKE ACTION.

Copies of New York Measures—Lawson, Armstrong and Hughes May Come to Ohio.

Columbus, O., March 6.—A movement is afoot to revise the insurance laws of Ohio along the lines of the revision in progress in New York provided for by the bills formulated by the Armstrong commission after its sensational investigation last summer. This revises the insurance subject which was talked to death in the early part of the session, when an insurance investigation for Ohio was proposed.

Copies of the New York bills are in possession of Representative Stewart of Clarke county, chairman of the house committee on insurance, and after they have been redrafted to apply to conditions in Ohio, the bills will be introduced in the house and an effort made to have them enacted.

Altogether there are about a dozen separate bills covering the various features of life insurance.

It is proposed to invite Thomas W. Lawson, whose exposures led to New York's insurance investigation; Senator Armstrong, chairman of the com-

mittee which made the investigation, and Charles E. Hughes, the attorney who examined witnesses in such searching manner that the world was startled by the revelations made, to address an open meeting before the insurance committee of the Ohio legislature in support of the bills. If all this is carried through a bill probably will be engaged for the open meeting that the public may be able to listen to the arguments of Lawson, Armstrong and Hughes.

What appears strange about this revival of agitation to revise Ohio's insurance laws is that no open, visible step is taken to ascertain or make public the intricacies of existing insurance laws of the state which were revised by the legislature two years ago under the personal supervision of A. I. Vorys, state commissioner of insurance.

If the revising two years ago was done properly the need of revision now is not apparent; if it wasn't done right two years ago it is time the people, or somebody for them, were finding out what was wrong about it.

There is a heavy calendar before both house and senate, and henceforth the grinding out of new statutes may be more expeditious than it has been to date. Since the beginning of the session, out of over 600 bills introduced only 26 have been enacted into law by passing both houses. As many more were killed in one way or another, mostly by committees. As the calendars are getting long it must be a very important bill that will be given right of way over others by being made a special order, for a tacit agreement was reached by the floor leaders of both sides in the house that hereafter bills must come up in regular order. The appropriation bills, the first of which is expected this week, are about the only bills that will get on the calendar under the rule for special orders.

As April 2 is looked forward to as the probable day of adjournment, the members with bills on the calendar some distance from the top will be more insistent for the regular order than heretofore.

Somebody seems to be giving unwilling witnesses at Cincinnati bad advice. The more they kick and squirm, the more insolent they are when on the witness stand, the more they dodge subpoena servers or disregard subpoenas, the more the people will be convinced that there is good reason for the Cox inquiry.

Said a Cincinnatiian to the writer: "We are satisfied to have the recalcitrants take either horn of the dilemma. If they come out openly and admit the facts they will reveal nothing that has not been long believed. If they resist or run away they will simply confirm belief in another way, and in a way that will not be creditable to those who take that course. We have a right to believe that the man who doesn't want to testify knows something that for some reason he doesn't want to tell. We are satisfied with the work of the Drake commission so far. If its hands were to be tied by the courts, or if it were to go no further, the disclosures already made are sufficient to convince the people of Cin-

cinnati that the time was overripe for smashing the Cox machine. The revelations as to Rud Hynicka were not surprising to us. They might have been in other parts of the state, but not with us. They simply corroborated what was long suspected and believed. Yes, indeed, the Drake commission has done good service to the city and to the state. It has uncovered some of the proof we long have wanted to get before the public."

Governor Pattison is not satisfied with the partial appropriation bill as it was jobbed through last week. It was submitted to him Saturday and he has ten days from date of passage to sign it, veto it or let it become effective without his signature. Secretary Brown said there was no reason for the report that the governor will let the bill go into effect without his signature, which would be acquiescent protest at least. If the governor finds items in the bill he does not approve of he may strike them out with his veto power, for the veto amendment to the constitution enables the governor to veto any part of a measure without vetoing the whole measure, if he chooses so to do.

As the bill was passed with some objectionable features so as to obtain an appropriation for the Cincinnati investigation, the governor may not use the pruning hook on this particular bill very severely, but the regular appropriation bills to follow will have to be without fault or blemish of any kind. In the appropriation bills to come the rearrangement of clerical salaries will be made; a number of reductions will be insisted on in the departmental appropriations, and all the way through economy will be practiced wherever possible. The senate finance committee will look carefully into a number of matters before passing on them.

In the investigation made by Senator Hafner, chairman of the senate finance committee, and Senator Lamb, it was disclosed that many of the banks, now state depositories, furnish surety company bonds. State Treasurer McKinnon admitted that the practice is bad, but under the law this privilege is accorded the banks.

"It is a dangerous system and should be corrected," declared Senator Lamb. "These banks should be required to furnish United States, state, county or municipal bonds. They are the only safe ones. The state, the government, the county or the city will never become bankrupt. They will go on with always a resource to draw upon. Any of these surety companies may go to the wall at any time."

For this reason Senator Lamb favors an amendment to the state depository law to require that banks designated as state depositories may no longer deposit with the state treasurer as surety for such deposits the bonds of surety companies. The present law provides that either United States, state, county, municipal or surety company bonds may be accepted from such banks by the state treasurer equal to the amount of deposits he makes with them.

Mayor Johnson of Cleveland is not going to give up merely because the house defeated the Metzger franchise bill. He will try to get through a bill for the same purpose in a different form. "If I am not sure just what lines the new bill will follow," said Mayor Johnson. "It's author has not been decided. The Republican party of the state is killing itself just as the party did in Cleveland. The party defeated the Metzger bill and will defeat the Howey franchise bill."

Saturday of this week the 2-cent fare act goes into effect. It will not be fought in the courts—unless the railroad magnates change their mind again. It was decided at a meeting of passenger officials of Ohio railroads held in Chicago to abide by the law, to reduce all transportation within the state to a 2-cent basis and to retain the 1,000-mile mileage book. The latter will continue to be sold at \$20, with a rebate of \$10, provided the book is used only by the purchaser. The book will be good in Ohio, but it will not be sold there unless the attorneys inform the passenger men that it will be legal to do so. If illegal, the Ohio traveling men will have to purchase their books outside the state.

It is further stated that the reduction of all fares to a 2-cent basis will do away with convention rates and all excursion rates, which were frequently as low as 1 cent a mile. This action also means the abolition of all charity rates and of clergymen's permits for lines within the state.

This change will work no great hardship to clergymen, whose rate is not much below what it will be under the new tariff.

Poor officials can purchase charity tickets almost as cheaply as heretofore, the people pay for these unfortunate any way and may as well pay full fare. Charity passengers can then travel first-class, especially if they are women, instead of being packed into smoking cars.

As for the convention rates, the regular fare will be but little more than the "fare and a third" allowed for most gatherings, and those who go to political conventions usually have money enough that they can afford to pay 2 cents per mile if they paid "one fare for the round trip" heretofore, which was a 1 1/2 cent rate. In fact, nobody will suffer much, and hundreds will benefit by the new law, particularly the railroads themselves, through increased traffic and every-body paying fare.

Comfortable Old Age

Is not a question of years, but a question of vitality and the preservation of all faculties, either by natural or artificial means. Whether young or old—for age is no criterion for the wearing of glasses—if you choose to go year after year wasting nerve force and straining your eyes thro' some defect, you must expect early decay—perhaps blindness—a natural decrease of vitality and consequent shortening of life.

Just think of it. We fit glasses for defective vision and eye strain—that's all, but a little piece of glass will work wonders. And you can try them for ten days. "Pay when satisfied," is our motto.

COUNCIL GRANTED A FRANCHISE TO NEWARK & MT. VERNON ROAD

The Ordinance Received the Vote of Every Councilman But One—Board of Public Safety to Submit Estimated Cost of a New Police Station and Patrol System Council Proceedings.

The city council met in regular session Monday night in the council chamber. Councilman Charles Conrad's desk was still vacant, as Mr. Conrad is still unable to leave the hospital. The routine business of the evening was quickly disposed of.

Residents of Columbia street presented a petition signed by two property owners asking for a sidewalk. The petition was received and filed. Spring street residents want their street improved by a sidewalk and asked the council in a petition to make this improvement. The petition was received and filed.

The finance committee reported favorably on the matter of granting the franchise to the Newark, Martinsburg and Mt. Vernon Traction company.

Mayor McCleery reported that fines and licenses had been collected to the amount of \$317.49.

A lengthy report of a special committee relative to the bylaws and rules governing the session of the body. The report was adopted.

A petition signed by Buena Vista street property owners protested against the construction of the Buena Vista street sewer. Mr. W. A. Robbins was present and stated that he understood that some of the property owners who signed the original petition had changed their minds. The matter was reported to the public service committee.

The ordinance granting a 25-year franchise to the Newark, Martinsburg and Mt. Vernon Traction line was read for the third time. On motion by Mr. Beadle and seconded by Mr. Moser the ordinance was put to vote. All voted aye but Councilman Hughes.

Ordinances were introduced providing that bonds be issued for improvements on the following streets in the following sums:

Gay street sewer, \$2,875.
Curtis avenue sidewalk, \$298.
Stansberry street paving, \$2,100.
Woods avenue paving, \$4,115.
Locust street paving, \$10,285.

Another ordinance to issue bonds for \$2,500 for sanitary purposes and to be placed in the sanitary fund of the city. Mr. Barst, a representative of a fertilizer factory, talked on this ordinance. He said his company proposed to put in a plant for the disposal of the city's dead animals.

A resolution was adopted directing the City Solicitor to ask the dismissal of the action entitled City of Newark vs. James W. Burnett, et al.

Another resolution was adopted instructing the City Solicitor to commence suit at once to quiet the city's claim to the old graveyard property.

A resolution was adopted instructing the public safety board to prepare plans and specifications and estimates for the construction of a police station and patrol system.

Councilman Moser introduced a resolution to advertise for bids for receiving the city's money on deposit.

The Newark Sanitarium presented a communication through Councilman Moser in which they proposed to erect a city hospital in connection with the present hospital in West Main street. They asked that \$5,000 be advanced for the purpose of erecting a suitable building. The letter was received and filed.

The bonds of the Licking County Bank company were submitted for approval. They were referred to the finance committee.

BOARD OF EDUCATION WILL BORROW; GRADUATES WILL NOT SPEAK

Ten Thousand Dollars Authorized to be Obtained at Best Possible Rate for Short Time—The Board Will Employ A Speaker for Commencement Night—Meeting of Board of Education.

The graduating class of Newark High school will not be allowed to give orations this year in the graduating exercises, but a noted speaker will be obtained to deliver an address.

Such was the decree of the board of education at Monday evening's meeting. A committee was appointed by the president of the board to act in conjunction with the superintendent in choosing a speaker. Presidents Thompson of O. S. U., Thwing of Western Reserve, Kane of Oberlin, Hunt of Denison, and State School Commissioner Jones, were suggested. The committee which will act in the selection of a speaker, is composed of members Keeley, Haight and Fulton.

The custom of members of the graduating class delivering orations is an old one, and very satisfactory, with the exception of the fact that the programs on these occasions often become tiresome. The later custom which is being introduced in many of the leading schools of today, in which a speaker is hired to give an address, seems to be generally more satisfactory, providing, of course, a good speaker can be secured.

As to the expense, it will in the end amount to practically the same amount for the board, although there is a marked dropping off in the attendance of the graduating exercises, according to the opinion of the members of the board.

The president and clerk were authorized to borrow \$10,000 at the best rate obtainable, to tide the board through the financial difficulties of its treasury at this time, and until June 25. The amount needed, in full amounts to \$25,000, but only a part of this sum will be obtained at this time.

Suggestions for the extension of the High school were made. Among others, the plans now being drawn by Architect V. E. Thebaud, were described. The proposed addition to the building are, according to these plans, to be built on either side of the building to the east and west line and a large open court, left in the rear. The plans have not yet been submitted in detail, but the general idea seems to meet with the approval of the board. Work on the building will probably be begun during the summer vacation.

Miss McCarthy, who has been for some time employed at the High school in the Commercial department as assistant and instructor in shorthand, was hired regularly for the remainder of the year at last night's meeting.

The secretary of the board received notice of the State convention of Members of Boards of Education, to be held at the Southern Hotel, Columbus on Thursday and Friday, March 16 and 17. It is probable that some of the members of the Newark board will attend.

Superintendent Sinkins was authorized to purchase ten graduation diplomas.

Following the report of the Triumvirate, which was accepted, the board adjourned.

DR. FOSTER'S BODY REMOVED.

The body of the late Dr. Charles A. Foster, whose death occurred two weeks ago, was taken to Cleveland, Ohio, Tuesday morning, where it will be interred. The body was accompanied by the late doctor's widow, Mrs. Annie Foster, Mr. and Mrs. E. W. Bander, and a brother. The funeral party left at 1:15 over the B. & O. railroad.

The big one man bowling tournament which was scheduled for the Music Hall Bowling alleys for today, opened at noon with nearly fifty bowlers from nearby towns in attendance. The tourney has been widely advertised and there is much interest manifested in the contest. Each bowler is compelled to pay a dollar for entrance fees which entitles him to roll three games and compete for the purses. The purses will be divided between the roller of the highest and lowest score, second, third and fourth high, most strikes, most splits and the high individual score. Bowlers are present from Zanesville, Coshocton, Mt. Vernon, Columbus and Newark.

SECOND MEETING HELD MONDAY

CONSTITUTION OF THE CITIZENS' IMPROVEMENT LEAGUE WAS ADOPTED.

Addresses Were Made by Several of Those Present and the Meeting Was Enthusiastic.

A second meeting of the Citizens' Improvement League was held Monday night at Taylor Hall, Y. M. C. A., when the committee appointed to draft a constitution and bylaws made its report. The constitution which was submitted by the committee was adopted each article being considered separately.

Only one article in the constitution announced the policy or purpose of the organization. This article provided that the executive committee should consist of nine members. The officers of the league and five appointed members will make up this committee. It shall be the purpose of the committee to plan all action of the league and submit such plans to the league for approval before any effort shall be made to carry it out. The committee which drafted the constitution was composed of Supt. J. D. Stinkins, Charles Flory, Rev. Mr. Klerman, Rev. B. M. O'Boylan, Howard Stevens and W. T. Curry.

The membership fees to be charged by the organization was fixed at \$1.00. The officers will consist of president, vice president, secretary and treasurer. The executive committee will pass upon and consider all questions of civic improvements and will urge the enforcement of the ordinances and repeat those no longer of value to the city.

Monday night's meeting was addressed by Rev. L. C. Sparks, Rev. B. M. O'Boylan, Mr. Charles Flory, Rev. Mr. Applegate, Mr. J. T. Sopher, and Dr. Hinehart. The entire meeting was full of enthusiasm and the members of the league are confident that much good will result from the organization. Rev. Mr. Franklin presided at the meeting as temporary chairman and Mr. Rollin Williams was secretary.

Another meeting will be held next Monday night at Taylor Hall at which time the officers will be elected and other business pertaining to the completion of the organization will be transacted.

One feature of the league which insures its success is the fact that many influential business and professional men of the city are directly interested in the proposed work of the league and will be active in the furtherance of the principals involved in the constitution and bylaws.

Plymouth Congregational Church.

The two weeks special services came to a close Sabbath evening. The services have been rich in wholesome influence and spiritual strength. From the beginning they were well attended. The fidelity of the membership, the singing of the choros, and the splendid preaching of Dr. Cadmus contributed largely to the success of the mission. In addition to the large class already received many shall be added in the coming weeks to the church as the outgrowth of these harvest days. Dr. Cadmus came at the request of the pastor and with the desire of helping in any way he might be able. He represents the more liberal school of theology. His sermons are unique in that he retains the old truths, he preaches the very same old gospel, but one listens in vain for the old terms. He re-clothes the gospel in the dress of modern speech. Again he is intensely practical, and while he makes it easy to begin to live the Christian life he reveals the vastness of its future. He is not an evangelist but a pastor, yet we feel that these services have been among the most helpful of any held in the church for some time. His strength and earnestness appealed to men. His gentleness and simplicity to the young and thus with the Father's blessing upon us great has been the uplift.

REFUGEES FROM OHIO RACE RIOTS

ARE FLOCKING FROM SPRINGFIELD TO CHICAGO, PENNSYLVANIA AND DESPERATE.

New Series of Burglaries and Disorder is Feared—Law and Order League at Springfield.

Chicago, March 6.—Negro refugees struggling into Chicago from Springfield and Dayton, Ohio, are causing keen anxiety to the police of the Stanton Avenue and Cottage Grove avenue stations. Hundreds of these unfortunate ones have reached the city within the last two days, ragged and penniless, are swarming about Armour and Dearborn streets, south of Twenty-second street without any means of support or any idea of how they are to make even a scanty living.

Springfield, O., March 6.—With 250 representative citizens present, the Citizens' League for the enforcement of law was organized at a meeting in the Commercial club rooms. Former Mayor Milligan, brother in law of Vice President Fairbanks, was elected president and W. W. Withney secretary. Those whose property was destroyed in the recent riots have encountered a queer legal proposition. Owing to a defect in the Ohio laws, they cannot recover damages from city, county or state. "It is probable that a bill will be introduced at once in the legislature to remedy this defect. The suffering property owners are also in some cases debarred from making collections from insurance companies owing to prohibitive clauses."

Consul Resigns. St. Joseph, Mo., March 6.—E. E. McJimsey, of St. Joseph, recently appointed United States consul at Callao, Peru, forwarded his resignation to Washington. Mr. McJimsey recently purchased a newspaper in Springfield, Mo., and will be its editor.

Caused by Explosion. Dunkirk, N. Y., March 6.—A fire which was caused by a gas explosion in the core room of the United States Radiator works destroyed about half the plant. The loss is estimated at \$150,000 and is covered by insurance.

Scholarship Winner. One of Japan's best-known novelists, expects to be graduated from Indiana University, next spring.

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe! Angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The order of the world which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child birth can be entirely avoided by the use of **Mother's Friend**, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain.

MOTHER'S FRIEND

ANOTHER RAID

Of a Walnut Street Resort Early on Tuesday Morning Resulting in Fines for Proprietress.

Antone Matheoney and Charles Spence, both well known characters in police circles got themselves into a peck of trouble Monday night when they broke into a tool shed belonging to Alexander Wilson a farmer residing two miles east of the city. Spence and Matheoney had been drinking and were en route to Zanesville, according to their own story, when they came to a nice warm fire on Wilson's farm where Mr. Wilson was burning logs.

They slept a while by the fire and Spence started out to forge a letter. He found the tool shed empty and took a saw, a brace and bit, a hatchet and a pair of sheep shears, all valued at \$6.

Mr. Wilson discovered Spence on his farm as he was returning from a neighbor's house, but did not know of the theft until after he had ordered the man from the place. He gave chase, but Spence escaped. Wilson found Matheoney at the fire and knowing the two men were together, brought him to the city and locked him in jail.

Matheoney was held to the grand jury under a bond of \$50. Captain Robert Bell and Officers McChine and Jamison raided another resort on Walnut street early Tuesday morning, and arrested several fair damsels including the proprietress of the place. The officers entered the place on their nightly tour of inspection and found several visitors drinking beer. The police officer is making an effort to break up the practice of violating this section of the statutes and this is the third resort to be raided for this cause. Mayor McGeevee made the proprietress \$25 and costs and the inmates and visitors \$5 and costs each.

AND NOW IT'S CHICO CIGARS. Interesting Talk by J. W. Collins & Son on What Makes a Cigar Popular.

The remarkable success of Wadsworth Bros. Chico cigar in getting into the mouths of smokers in Newark is astonishing.

Less than a year ago the Chico was unknown here. Today it is the most popular cigar in J. W. Collins & Son's large stock. "Advertising alone will not make a cigar popular," said Mr. Collins. "A cigar must be good to meet with a sale in this city. I do not know of a town where the smokers are as discriminating as they are in Newark, and the fact that they have made Wadsworth Bros. Chico their favorite, speaks volumes for its quality. While it sells for 5c it is better than the average ten center, so that it reaches all classes of smokers. It is an all long Havana filled cigar, and a good one, that I am glad to recommend to my customers." F27-M1-6

GRAVEYARD. Mr. Carl E. Graef, a well known carriage painter of this city, and Miss Bessie Harris, daughter of Mrs. Mary McVey of North street, this city, were united in marriage by Rev. J. C. Schindler, at the parsonage of St. Paul's, on Monday evening. Both parties are very well known in the city and have a large number of friends. For the present they intend making their home with Mr. Graef's parents, Mr. and Mrs. Charles Graef of North Fourth street.

TWO CENT FARE NEXT SATURDAY

THE DECREASED TARIFF GOES INTO EFFECT ON ALL OHIO ROADS

At the Same Time All Reduced Rates Will be Discontinued.—Each Road to Devise Excursions.

Two cent a mile tickets will be placed on sale by all Ohio railroads by next Saturday. At the same time special rates will be abolished. No round trip rates at reduced rates, special class rates will be discontinued, but fare will be paid by elementary rates of charity, dependents, Salvation Army members, and old soldiers. No rates will be granted for convention, but children will be carried at half fares as usual, and commutation rates will continue. Each road solves the matter of Sunday excursions for itself. Excess baggage is to be computed at 15 instead of 12 per cent, on a full fare. The members of National Guards pay two cents instead of one. This will cost the state \$2,000,000 yearly.

No member of the British Parliament is permitted to say bluntly, directly that another is drunk.

OBITUARY

MRS. SARAH MISLEY. Helron, March 6.—Mrs. Sarah Misley, aged 75 years, died suddenly Monday at the home of her stepson, Mr. Phillip Misley after a short illness of pneumonia. The deceased is survived by one son, Charles. The funeral services will take place Wednesday morning at 10 o'clock from the home, Elder L. W. Rafter of the Baptist church officiating. Interment in Helron cemetery.

JAMES E. BRADFIELD. The sad intelligence of the death of an old and well known former resident of Helton, Kansas, James E. Bradfield, was received in this city by his wife's parents, Mr. and Mrs. Henry Montgomery, of East Newark, last evening. Mr. Bradfield died at his home in Madison, Kansas, where he has resided for some time, at the age of 66 years. His death was a great surprise to the many relatives and friends in this locality. The deceased was born near Perryton, O., and spent a great part of his earlier life in Jackson county. At the age of 18 he enlisted in the 12th O. V. I. under Col. Bell of Zanesville. During his residence in this country Mr. Bradfield was engaged in stock raising, which business he remained in during his stay in Kansas.

In the year 1876 he was married to Miss Alice Montgomery, the daughter of Mr. and Mrs. Henry Montgomery of this city, who with three children, Harvey, Lewis and Hattie, survive. There also remain two brothers, William E. Bradfield of this county, and Marion, of Madison county. The funeral will be held from his late home in Madison, Kansas, Thad L. Montgomery, of Coshocton, and John A. Montgomery of Decatur, Ill., have left to attend the funeral.

H. C. HARDING. H. C. Harding, a well known resident of Johnstown, this county, died at his home in that place at 1 o'clock Tuesday morning after a lingering illness of consumption. The deceased was aged about 54 years. He was a miller by trade, and for many years had been employed as head miller by Messrs. Simpson & Norris of Johnstown. He is survived by his widow and one daughter. The funeral services will be held on Thursday afternoon at 1 o'clock, and the interment will be made in the Johnstown cemetery.

CARD OF THANKS. We desire to express our thanks to our dear neighbors and friends, who so kindly assisted us during the sickness and death of our beloved daughter, Minnie. The acts of kindness and expressions of sympathy will ever be remembered. We thank those who assisted in the music at services. Mr. and Mrs. O. J. Hawkins and family.

CARD OF THANKS. We desire to return our heartfelt thanks to the friends and neighbors for their many acts of kindness and sympathy and to the minister for his kind words of condolence during the sickness and death of our beloved husband and father. Also for the beautiful floral offerings. Mrs. Henry Bowman and children.

CARD OF THANKS. We desire to express our thanks to our dear friends and neighbors who so kindly assisted us during the sickness and death of our beloved dear wife. Their acts of kindness and expressions of sympathy will ever be remembered. We also thank our dear friends and neighbors of Newark and Outville for the beautiful floral offerings.

A precious one from us has gone. A voice we loved is stilled; A place is vacant in our home, Which never can be filled.

God in His wisdom has recalled The boon his love had given And though the body moulders here, The soul is safe in heaven. —From Husband and Family, Mr. John Keimlizer.

MOTIVE FOR MURDER

(Continued from Page 1.)

that he could kill the deceased, and he threatened to kill her and it bore upon his mind with such force that he was compelled to talk about it. He also talked about the deceased.

They were enemies at this time, but before this they had been on friendly terms such as neighbors are, but they began to cease to speak to each other notwithstanding the fact that they lived within 200 feet of each other, and were on bad terms which grew out of the occasions which had been referred to.

After having burned the home of the deceased he put himself in her way, frequently sought to make up with her, and in about ten days, the 28th day of June, this condition of mind resulted in the cruel murder of which I have spoken.

The murder was committed in the morning about 10 o'clock. Mrs. Hughes, the murdered woman was a woman about 36 years of age, of a good figure, and was what we generally term a good looking woman, small in stature and slender built; would weigh about 110 pounds; was the mother of three children living and the wife of Simon Hughes.

"She had gone to her sister's that morning to make some pillow cases, having lost all her household goods in the fire. She returned from Ogle's on the top of the hill north from their home about 9 o'clock, turned the pilot cases over to Dolly and directed Dolly to take charge of them. Ray, the little boy, was also there. She then got her pail and started to the spring in the woods; she wound her way down to the bottom of the hill as happy as the birds in spring as she approached the scene of her assassination. The spring was in a deep ravine. The prisoner of the bar was concealed behind the bushes or concealed himself in his approach, and cut off her means of retreat; there the struggle began.

"The deceased screamed loudly for help, but the blow on her head rendered her unconscious, and with the right hand of the prisoner at the bar upon her throat strangled her.

"It was then necessary for the prisoner at the bar to cover up what he had done, and he took a trail through the bushes and there he was discovered and ran a few steps, secreted himself by falling down, and after the intruder had passed he turned, placed the woman's neck between two saplings of a tree.

"In addition to these facts the state expects to prove the conduct of the prisoner at the bar after the murder. The first object of the accused was to see whether he had been recognized or not and where the person who had seen him might go. He followed him up the hill shortly where he could see his course, and when the person who had seen him had turned towards Dolson's the prisoner at the bar sought to be at Dolson's first. He went in that direction; he was seen by different persons or witnesses, and when he got to Dolson's he sought to have Dolson go to the scene of the crime; he then went to his own home and there sought to take on a total indifference to all things that were going on about him.

"The alarm was soon raised by the children that their mother was lost or something was wrong and in a short time a number of neighbors had gathered and a search was made for her. She was found in that condition of which I have spoken. The country side was notified and shocked over the occurrence and late in the afternoon the coroner arrived and had the body removed.

"During all this time the prisoner at the bar was in a field in sight of the crime and continued his daily toil. The neighbors had informed him of Mrs. Hughes being found murdered, he paid no attention to it, nor did he ask how, when or why; he sought to show a total indifference to the matter. He learned, however, in the evening that the neighbors were going to have some bloodhounds there to trail the murderer, learned that they would be there the next day. Before they came he left home. The bloodhounds were brought from Dayton, Ohio. They were placed on the trail at the tree where the body was found. They took the trail from this tree and then went in the same direction that the prisoner at the bar had taken to Dolson's house and then to the Dickerson house and from there they carried the trail on into the barn yard.

"The claim is that there was a trail that led from this tree to the Dolson house and from there to the Dickerson house, and that Dickerson was on this trail several times and had been at both ends of it.

"The sheriff went to Dickerson's home and there found him and he was arrested and brought to jail. After he was placed in jail he pretended to give a statement as to his whereabouts on that day, and in which he denied having been in the neighborhood of the spring or across the road claimed to have been at Dolson's claimed to have seen McGeevee in the

Everlasting War

The child is born with the final cause of death present in its little body. From the moment of birth it goes through life with the one broad cause of disease ever present. Nature is waging a continuous battle against this enemy, and on her everlasting war depends your life. And you—are you helping or hindering Nature in her fight?

NATURE'S WAR ON WASTE MATTER

Think the battle with your muscles, doing so you have worn out little particles of your muscles. Did you ever stop to think what becomes of this worn out muscle? Your physician will tell you that it changes into uric acid.

Every time you move you make uric acid, every time you eat too much you make more and so the blood is always full of it. But too much uric acid in the blood is a deadly poison. Well, nine people out of every ten you meet have an overload of uric acid in their blood. It causes nine-tenths of all chronic disease.

Have you Rheumatism of any kind? Uric acid has caused it by settling in the joints or muscles.

Have you heart disease, kidney trouble, cystitis, lumbago, catarrh, neuralgia or stomach trouble? Uric acid is the cause.

No matter in what part of your body uric acid settles—in that part disease is present.

LIFE PLANT IS NATURE'S HELPER

A good workman always has a helper.

Nature is a good worker and a hard fighter, and she too has a helper.

You have just read how uric acid is ever present in your system, how it diseases different parts of your body.

Well, Nature works hard, fighting, getting rid of this poison, but when you feel badly there is too much uric acid present. Nature can't get rid of it alone, she needs help.

LIFE PLANT aids Nature, dissolves the uric acid and stops the system from making too much of the poison.

LIFE PLANT is a tonic. It makes the blood rich and pure, aids the stomach and kidneys and encourages the heart, tones up the entire system and makes a healthy body.

LIFE PLANT does not simply dander pain, it cures. It is a natural medicine, made from roots and herbs to remove the cause of disease—it cannot harm you.

HOW URIC ACID DISEASES BEGIN

Headache, poor digestion, biliousness, dry skin, darting pains, sleeplessness, dark colored urine; in women, menstrual disorders, sluggish brain and shortness of breath. These are the beginnings of disease, the start of uric acid's fight against health.

If you have any of these symptoms, or already have any disease which follows them, act at once. For the sake of your health don't delay. Come to Nature's aid at once. Take LIFE PLANT. Cure yourself by removing the cause—uric acid.

neighborhood of the spring, but stated to Dolson he had been in that neighborhood.

At the close of Prosecutor Glenn's remarks Judge Voorhees stated the case for the defense.

At the close of Judge Voorhees' remarks, Mr. Glenn arose and said he wanted it made clear that nothing else could be brought into the case other than had been given in the opening remarks. He made it pointed that the law would not permit any insanity plea later on in the case, for instance.

The word insanity was like a red flag to a bull, in the eyes of the defense. They vigorously berated the state for any such suggestion and even said the state had engendered talk of that kind.

The bitterness of statements on each side showed the intensity of feeling both sides have. Judge Voorhees charged the state with unfairness and the counter charge was fired back.

An Uncomfortable Trip.

Passengers on the Columbus interurban car which leaves Columbus at 6 o'clock were treated to an experience Saturday night which was not calculated to cause the most jovial spirit to exist among the passengers. The car left Columbus nearly on time, but the passengers did not reach Newark until almost 9:10 o'clock. Just as the car neared the city limits in Columbus, a "hot-box" set fire to the floor, and it was necessary to stop and extinguish the blaze with the chemical extinguishers carried for such emergencies.

A long wait then followed. The next car which leaves the Columbus station at 7 o'clock, arrived and though both cars were packed, those in the belated car were compelled to force their way into the relief car and it was filled to suffocation. In addition to the uncomfortable crowd, there were a number of "drunks" who made the trip miserable for the late passengers. The car finally arrived in the city about 9:10 o'clock, making a trip of over three hours for those who left Columbus at 6 o'clock.

Masquerade at Palace Rink.

The second grand prize masquerade at the Palace Rink, Wednesday evening, March 14th, promises to duplicate the success of the first one, which was held February 14th. The prizes will be the same as on the former occasion. A pair of minkie plated half club skates for the most neatly dressed lady, and a pair of minkie plated full club Vineyard skates for the gentleman presenting the most humorous appearance.

Skating will be from 7 until 11 o'clock on this particular evening. Persons in costume will unmask at 9 o'clock when all wishing to skate may do so. Remember the date, March 14th.

WILL ADVERTISE FOR NEW BIDS

FROM BANKS WHICH WOULD
LIKE TO BE A DE-
POSITORY

For the Funds of the City In Excess
of Those Now Held By the Lick-
ing County Bank Company.

Two mistakes made by the city council at the last meeting were rectified Monday night both by new resolutions introduced for the purpose. The first was in reference to the ordinance for the issue of bonds to establish the police patrol system and increase the size of the police force and the second was regarding the deposit of the city's money in a city depository.

Bids were opened at the last meeting of the council offering rates of interest for the deposit of the city's funds. The Licking County Bank bid 2 per cent. on the daily balances, while the Newark Trust Company bid 1 1/2 per cent. The municipal code states that no bank can accept deposits from a municipality in excess of its capital stock and surplus. The Licking County Bank, therefore, can accept but \$220,000 of the city funds.

A resolution was introduced last night directing that the city clerk again advertise for bids for what remains of the city funds. Representatives of the Newark Trust Company addressed the council, saying that they believed they were legally entitled to the remaining funds after the Licking County Bank had received all it was entitled to according to law. They cited the City of Toledo as a sort of a precedent. Three banks there bid for the money. The bank bidding the highest rate of interest received all the money allowed by statute. The next highest bidder received a like amount, and the third highest bidder got what was left. The Newark Trust Company held that it was entitled to all the funds which could not legally be given to the Licking people.

Councilman Beadle stated to the council that there has been some complaint that the rate of interest was not high enough, that the city should receive at least 4 per cent. He stated that while some thought the council had no right to re-advertise the funds, that he believed it had, inasmuch as the resolution which awarded the monies named but the one bank. It would be necessary to rescind the first action of the council. He stated that the council hoped to get a higher rate of interest for what remained of the city's wealth.

The ordinance relating to the establishing of the police patrol system and the increasing of the police force was not at all in accordance with the statutes. The code provides that bonds for such purposes can be issued only for the erection of a police station. Therefore, the ordinance calling for an issue of \$10,000 in bonds for the patrol system and more policemen was entirely out of order.

To correct this error a resolution was introduced Monday night instructing the board of public safety to prepare plans and specifications and estimates of cost for a police station and patrol system. In all probability after this estimate is given, a bond issue will be called for which will cover the cost of such an improvement. The patrol system will be included in the station house and thus the council will drive around the municipal code. The only way funds can be secured to increase the police force is to increase the rate of taxation. This can not be done until next year, so Newark people will be compelled to be satisfied with the present police force until the new rate of taxation can be made available.

EVERETT WELL SHOT SUNDAY

WITH A RESULTING INCREASE IN
THE FLOW OF OIL THAT IS
SATISFYING.

Pumping Machinery Has Been Ordered
From Pittsburgh and Will be
Soon Put to Work.

The oil well located on the Wickham farm, a short distance from Black Hand, and belonging to Mr. E. H. Everett the well known oil manufacturer of this city, is now a much discussed topic among oil men. The well was drilled in last week, and it is said has been flowing at the rate of five or seven barrels per day. Sunday the well was shot, and the flow has been greatly increased. Mr. Everett, however, says that it is impossible at the present time to estimate the production of the well. He has ordered pumping machinery from Pittsburgh, and as soon as it arrives the work of pumping the oil will commence. The people in the vicinity of Black Hand, and all men throughout the country in general are greatly excited over the strike, as this is an entirely new territory. Mr. Everett has already leased over 11,000 acres of land in this vicinity. He is well pleased with the result of the first well, and the probability is that more wells will be drilled immediately.

Struck Gas at Wehrle Well.

The drillers, who have been working on the Wehrle well, on the Zartman farm, southwest of the city for some weeks, struck gas sand about midnight Monday night. The sand was penetrated to a considerable distance, but it is reported that the showing of gas did not amount to much. It is not known at this writing whether the well will be shot or not.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out
With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressing there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

MISREPRESENTATION OF TREE AGENTS

Current Bulletin of the Ohio Agricultural Experiment Station Contains Interesting Statements.

Wooster, O., March 6.—The Ohio Experimental Station has recently received several letters similar to the following: "Tree agents are working in this vicinity selling black locusts at \$25 per thousand. They claim that the trees will grow to post size in 4 to 6 years. They also claim that the trees they are selling will not sprout from the root and that it will not be necessary to keep live stock away from the young trees." We are also in receipt of many inquiries as to the advisability of planting locust trees along the line of fences to serve as live posts. Reliable nurseries in Ohio are cataloguing black locust trees at \$6 to \$10 per thousand. Locust trees will not ordinarily grow to post size in less than 8 to 12 years from planting. They will not sprout from the roots so long as the trees are uncut or uninjured and the roots are not cut or seriously injured or the roots broken, sprouts will come up from the roots. So far as is known all black locust trees are alike in this respect and any claim that they will never sprout is either through ignorance or for the purpose of deceiving.

Live stock, and especially sheep, are almost sure death to young locust trees if allowed to pasture where they are growing. Live stock, and especially sheep, along the line of fences adjacent to tillable land, because of the fact that the sprouts which grow from the roots will, in most cases, become a nuisance. The trees will also be more liable to injury from live stock, as it is not practicable to fence the trees in. In most cases the trees would of necessity be planted in sod and thus would receive no cultivation. The growth under such conditions would be slow at the best, and the grass would encourage the presence of mice which are very destructive to young locust trees.

CHICAGO SINKING INTO A TUNNEL

Marshall Field Store, Pullman
Building and Big Sky Scraper
Sinking.

Chicago, March 6.—Chicago is gradually dropping into the hole under the streets known as the Illinois Tunnel. The big Marshall Field store started down today and smashed the glass in two big show windows. The Bellini skyscraper, across the street, has settled until tenants are becoming frightened. The Pullman Building has gone down so far that it is split from basement to the turret. The Field wholesale structure in Adams street has been sinking for months and is still going down. At twelve different street intersections there are depressions in the streets.

It is held possible by engineers that a short drop, such as might easily come beneath the corner of a steel bolted structure at any time, would result in so great a strain on the frame of the building as to cause it to fall. Serious consequences are feared should such an accident come with the building crowded with shoppers and employees.

The Union Loop manager has found traffic and the lives of passengers endangered because of sudden depression and twisting of the elevated structure. The ordinance requires the tunnel to be 27 feet under the streets. The intervening 27 feet is mostly mud.

The End of the World

Of troubles that robbed E. H. Wolfe, of Bear Grove, Ill., of all usefulness, came when he began taking Electric Bitters. ACT QUICKLY.

Delay Has Been Dangerous in Newark

Do the right thing at the right time. Act quickly in times of danger.

Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. C. L. Starr, harnessmaker, of 89 Hancock St., Newark, O., says: "My confidence in Doan's Kidney Pills as a kidney and backache remedy is unbounded. In recommending this preparation I speak from experience. For years I was a sufferer from kidney complaint and backache and could get no relief. I had a miserable aching pain in the loins and my back was lame and weak. It was just as bad night or day and when I attempted to stoop or pick up anything a pain would strike me in the back that almost made me fall. If I remained in one position for any length of time and then moved quickly the pain stabbed me like the thrust of a knife. I suffered in this way for years, and all the remedies that I tried failed to help me. I was just as bad as ever when I got Doan's Kidney Pills at Crayton's drug store, and you may believe that I was delighted when the first few doses brought me relief. In less than forty-eight hours the backache was gone and I continued the treatment until entirely free from my old trouble. My wife used Doan's Kidney Pills and they did the same for her, and neither of us have had any return of kidney trouble since using them."
